# PRODUCTS WE OFFER

**SENJED**

Senjhor or sinjhor in Pakistan, sinjid in Afghanistan, iyda in Azerbaijan, senjed in Iran, is a species of *Elaeagnus*, native to western and central Asia.

**DATES**

Phoenix dactylifera, commonly known as date or date palm, is a flowering plant species in the palm family, *Arecaceae*, cultivated for its edible sweet fruit.

**SAFFRON**

Saffron is a spice derived from the flower of *Crocus sativus*. The vivid crimson stigmas and styles, called threads, are collected and dried to be used mainly as a seasoning and colouring agent in food.

**HONEY**

Our Honey Known for high quality products, Maroon Trade Hub brings honey from the farm to the family table, without compromising its natural vitamins and enzymes and keeping it as close to the hive as possible

**DATES SAP**

For the preparation of date sap, a large amount of the dates should be stored in a clean area and shelters. After a while, due to compression, the dates surup flows into a thick liquid through the stack of the dates.

**GRAPE SAP**

First grape juice is separated from the grape, then add some alkaline soil to make grape spoil with the soil, then pour the grape juice into boilers to make it close to red in golden color.

**SOHAN**

Sohan is a traditional Persian saffron brittle toffee made in Iran. Its ingredients consist of wheat sprout, flour, egg yolks, rose water, sugar, butter, saffron, cardamom, and slivers of almond and pistachio.

**GAZ**

Gaz is an Iranian nougat. It is widely known as Persian Nougat in American and European countries. The Persian word Gaz is associated with gaz-angebin which translates to 'sap of angebin', in reference to a species of *Tamarisk*.

# PRODUCTS WE OFFER

**CARAWAY**

Caraway, also known as meridian fennel, and Persian cumin, is a biennial plant in the family Apiaceae, native to western Asia, Europe, and North Africa.

**RAISIN**

RAISIN is a dried grape. Raisins are produced in many regions of the world and may be eaten raw or used in cooking, baking, and brewing.

**JUJUBA**

Ziziphus jujuba, commonly called jujube, red date, Chinese date, Korean date, or Indian date is a species of Ziziphus in the buckthorn family.

**DRIED LIME**

Dried lime is a lime that has lost its water content, usually after having spent a majority of their drying time in the sun.

**BARBERRY**

barberry is a large genus of deciduous and evergreen shrubs from 1–5 m tall, found throughout temperate and subtropical regions of the world.

**KASHK**

Kashk is a range of dairy products used in cuisines of Iranian. Kashk is made from drained yogurt or drained sour milk by forming it and letting it dry. Kashk Served as solid or concentrated liquid.

**BLACK KASHK**

Black Kashk or Qarehqurut, is a milky product, after removing the fat of the yoghurt, the remaining liquid is boiled to be concentrated as a Kashk. The liquid left will be boiled and dried to produce black Kashk

**ZANTE CURRANTS**

Zante currants, Corinth raisins, or Corinthian raisins, also called simply currants, are dried berries of the small, sweet, seedless grape cultivar 'Black Corinth'

# NUTS

We offer super-fresh and wonderful range of organic nuts in all sizes and types which come in small packs and large bulk sacks.

All products come from organic farms by natural and standard methods. The original and amazing taste of these products is due to farmers who have been producing these for several generations.

## HERBAL TEA

Herbal tea isn't really made from tea-which is a specific kind of plant. The French use the word tisane, which is a little more accurate, since herbal tea is really just an infusion of leaves, seeds, roots or bark, extracted in hot water. In drinking a well-steeped herbal tea, we get all the plant's benefits in an easily digestible form.
